

ROUND MAX SERIES

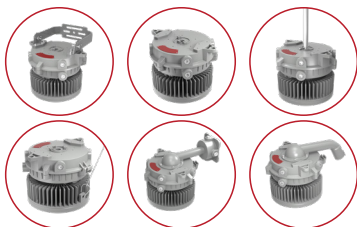

**EXPLOSION PROOF, VERSATILE AND
ENERGY EFFICIENT**

Bigger, Badder, Brighter – Round-Max brings the size to the Round Series line-up

The Round-Max is designed for indoor mid to high bay and outdoor general area applications. Available up to 30,000 lumens with type I, III and V optics, it is designed to distribute the light where needed most, reducing the number of fixtures needed. Ideal for lighting oil & gas refineries, shipyards, power plants, and other industrial applications.
